

BBQ Trailer pack up instructions

Thoroughly clean BBQ surface then slightly oil surface to protect surface of BBQ.

Remove grease/fat tin and clean out contents of tin, then place in front box of trailer.

Release BBQ slide locks, then slide back into fully in position until BBQ locks in place.

Close tailgate and fit tonneau cover over back of trailer.

Raise rear legs back into forward retracted position.

Back up to trailer and hitch up trailer, attach safety chain and wiring. Remove wheel chocks and place in front box of trailer

Drain eskies by tap located on left side of A frame. If required flush out eskies with clean water and wipe out.

If required wash exterior of trailer with mild car wash detergent and shammy off.

Make sure marquee is strapped down for transport.
